Serial No. 08/879,827

Art Unit 1643

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures.

In the interest of compact prosecution, applicant is **STRONGLY ADVISED** to include in the Listing the sequences for the Genbank accession numbers recited in the claims. Reference to a Genbank accession number in the claims will probably be treated as improper incorporation by reference for subject matter which is essential for the description and enablement of the subject matter claimed. If the specification is amended to include the essential subject matter (the recitation of the nucleic acid sequences), then applicant will be required to include the sequence recitations in the Sequence Listing. Applicant should also note that sequence recitations exist both in the text of the specification (e.g. page 13) and in the Figures (1 and 4).

APPLICANT IS GIVEN ONE MONTH FROM THE DATE OF THIS LETTER WITHIN WHICH TO COMPLY WITH THE SEQUENCE RULES, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136. In no case may an applicant extend the period for response beyond the six month statutory period. Direct the response to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the response.
